SCHOOL REPORT

There have been 158 pupils registered in our schools during the past year. Of this number 84 are boys and 74 girls. Three scholars have neither been absent nor tardy for the entire year, thirteen who have had perfect attendance for two terms and 25 who did not miss a day in one term of the year.

Besides this number there were 12 who had perfect attendance for 95 per cent or more of the school year. This record shows that the pupils have been taking an interest in the school work by their regular attendance.

All the schools have kept 32 weeks during the year, and are therefore entitled to a certain amount from the State toward their support.

Our teachers have all been fully satisfactory, and the diligent and conscientious work that they have put into their duties is a source of great gratification to all concerned. Their work has been commendable in all ways and has been approved of by both the School Board and parents.

There has been considerable repairing done during the year. The Hill school house, which has been in need of repairs for some time, has been furnished with new seats and sheathed all over, with other small repairs. The repairs cost \$246.69.

Repairs have also been made at the South Road, Chester Road and East Candia Schools as needed. At present the buildings are all in good repair with the exception of the Tower Hill school, which was to have been repaired last year but was not on account of the failing of the town to appropriate the money needed.

The Board has not purchased any new books during the year, but it is suggested that during the coming year it would be a good idea to furnish all the schools with new readers and perhaps spelling books. The reading and spelling books now used

have been in use so long that the scholars know them nearly by heart.

The schools have gone along smoothly during the year and have not been interrupted by any serious illness or contagious diseases. None of the schools have had to discontinue their work for any length of time on account of severe weather.

The Board feel that the school work during the year has gone along smoothly and it is hoped that it may continue.

BENJAMIN F. LANG,
LUCIE A. E. HOLT,
OSCAR FISK,

School Board.
